### Greenhorns

Never played before. How do I hold it?

### Beginners

Feel like a beginner but have made a little bit of music on a guitar before; one or two chords or a simple identifiable tune.

### Intermediate

Have some experience of playing the guitar. Can play a number of open chords confidently for accompanying songs or can play single string melodies.

### Advanced

Can play most open chords, major, minor and 7ths, can play some barré chords or other chord shapes with some knowledge of the fingerboard. Can play melodies with chordal arrangements or play with identifiable picking styles, moving Bass lines etc.

## Song accompaniment

### Beginners

I would like to accompany myself or groups of singers (children or adults) but have never played guitar.

### Intermediate

I would like to accompany myself or groups of singers and can play a number of chords. I would like to learn more about styles and patterns and more difficult chords.
