Cherry Bomb Exhaust

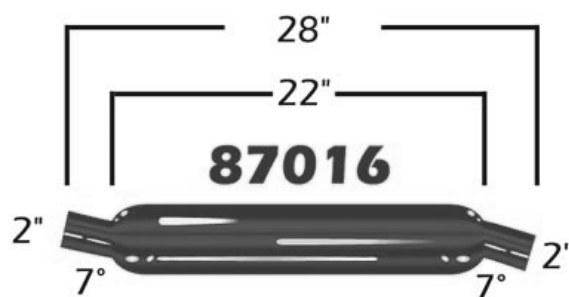

With their bright red finish, unforgettable sound, and awesome performance, Cherry Bomb glasspack mufflers made a huge impact on the hot rod world when they first appeared in 1968. Today's Cherry Bombs are better than ever! They're crafted from lightweight aluminum and tuned to perfection in a first-class dyno facility, and they still have that throaty exhaust sound. Cherry Bomb Exhaust also manufactures several other patented mufflers designed to suit different demands for sound and performance, plus complete cat-back exhaust systems, exhaust tubing, couplers, and hardware. If you're ready to disturb the peace, grab a Cherry Bomb!

Smooth Transitions
Stamped Y-Pipe and Tru-X Pipe transitions are great for single/dual, dual/dual and balance tube applications. MagnaFlow's stainless steel Tru-X crossover pipe represents a significant leap forward in technology over traditional H-pipes. The more gentle radius allows for better exhaust gas scavenging, noise cancellation and better balance between cylinder banks. The result is a significant increase in power and torque but a reduction in db sound levels... the best of both worlds.
